We requested our students to subscribe there videos, and learn the lessons. Nevertheless many students could not follow all the classes. Some don't have an android phone, some had used their parents phone that too only when they were available. Yet many appreciated this new venture.

Providing Rice and Dhal:

In Tamil Nadu there is a scheme called free Noon Meal through which the school children are provided Noon meal freely. Since the schools are closed in our state, the preserved rice and dhal was given to the students to make use of them at home.

Success Story

Dear Friends.

Merry Christmas and Prosperous New Year wishes to you all. I am J Prince Densing a B.E (Bachelor of Engineering) graduate hailing from Thatchur village severely affected by the caste system of India. My family history will be shaking for you all after reading my success story. My father and my mother loved each other but both the families did not accept their love As a result my mother quit her family and married my father without her family consent. In Indian society if a girl elopes with a boy it will be considered as social offence and the family will not accept her any longer and it continues even now. So my mother family did not accept her. Even then with the help of my parents I could do my school studies. After my school I was willing to do my graduate in engineering without any proper source. At that time I came to know that Fr John Suresh and Nandhini Akka were helping lot of student in my village for their higher studies so I approached them to pursue any higher study and with great pleasure they accepted me and encouraged me. I did my engineering studies at Karpaga Vinayaga Collage of Engineering and competed successfully. I am now working in a Electrical India Private Limited (MRTS) company and I stand on my own

and take care of my family. At this right moment I sincerely remember and thank Rev Fr John Suresh and Nandhini Akka and all the friends and benefactor who played a very important role in my studies and in my growth. I specially thank our loving Pappa Dr Johannes Mispagel who has been back bone of our WE Group. Thank you all once again I wish you all Happy, Healthy and prosperous New Year 2021.

Thanking you
Prince Densing J

True Story

Dear brother and sisters.

I am Sandeep Raj Studying at 10th Standard in Dr R Arulappa Higher Secondary School, Neerpair. I stayed in our St. John home for children in need. I am a semi orphan boy as my father left us when I was a small kid. My mother is a Scavenger. I have a brother too. My mother is the only bread winner of my family. Though she finds very difficult to run the family she wants to educate us though she is illiterate. I joined in our school because the school fee is very less comparing with other school and the children are given good care. I know this from my village friends who studied here before me. I am very happy here and I am pleased with the atmosphere here. Good food is served here. Our boarding wardens take care of us all. Our lovable Akka Nandhini Krishnan often visit us and advices us. She asks of our needs and moves with us as a kind mother. In the school the teacher teach us well I am really happy to be here I thank each and every one who help us to this life here. I wish you all happy Christmas and wonderful New Year 2021.
